

FOREIGN LABOR.

A sensation was produced in Whit ing, Ind., when a report gained ground that the Standard Oil Company had decided in the light of recent events, to dispense with all non-English speaking foreigners now in their employ. It is generally believed that the report of the company's action is the result of many appeals made by residents both in and out of its employment. Lawlessness and crime have existed ever since the advent of the big oil company, five years ago. The number of foreigners employed by the Standard is about 700.

If all the corporations in the United States would dispense with non-English speaking labor, and send the miserable refugees from the prisons and poor houses of Europe back across the water, it would go a long way toward enduring the reign of hard times in America. We have enough able-bodied Americans here to perform all the labor necessary, and the sooner we run our country on that basis the better.

NEWLAND'S WAS THESE.

The Carson City mint will not close this year as alleged. The question was fully discussed by a sub-committee of the Committee on Appropriations, which has in charge appropriations for the Treasury Department and Director of the Mint. Preston and some of the other Treasury officials gave it as their opinion that a mint was a needless expense to the Government. The committee seemed to share this opinion at first, but Representative Newlands made such a fight to maintain the mint that the committee was finally induced to make the usual appropriations to run it another year.

What will numerous men in this city who knifed Newlands in the last election say to this. We might also ask them where Doughty would have been if he had to urge the claims of the mint before the committee.

One on Stewart.

The New York Tribune is authority for the following:

"It is said that during a recent executive session of the United States Senate a minor appointment was up for confirmation, and, some objection thereto having been urged, the Senator who represented the appointee pleaded for fair play and generosity. 'In confirmation of minor appointments like this one,' he said; 'I think Senator Stewart should apply the Golden Rule.' Senator Stewart has not been paying much attention to the debate, but at these words he pricked up his ears and lifted up his voice. 'Mr. President,' he exclaimed, 'I don't know what this gold rule is, but I object to it. The money power has run this country long enough. Ever since the crime of '73 was committed—but here some one interjected an explanation, and amid laughter the Nevada statesman subsided.'"

The Supreme Court of California has unanimously decided that the primary elections law passed at the last session of the Legislature of that State is unconstitutional as it applies only to counties of the first and second class, that is to say San Francisco and Los Angeles.

A Carson lawyer wrote as follows to the widow of a deceased friend: "I cannot tell you how pained I was to hear that your husband has gone to heaven. We were bosom friends, but now we are never to meet again."—Free Press.

Chas. Michelson, the Examiner's war correspondent, has been arrested by the Spanish authorities in Cuba. This is great luck for a war correspondent, and we congratulate Charlie, who is a Nevada boy for whom jail has no terrors.

A hunter in Idaho poked a neighbor in the ribs with the muzzle of his rifle to wake him up, and was shot dead. Hereafter when an Idaho hunter wishes to wake up a neighbor he will shoot him first and poke him afterward.

In its efforts to detect scalper's tickets the Southern Pacific company have ejected a number of passengers from their trains and now has half a million worth of damage suits on hand. The law department has called a halt.

The Independent says the citizens of Elko have subscribed nearly the amount asked by the railroad company, and there seems little doubt but the shops will be removed from Carlin to Elko.

The Silver State characterizes the Enterprise man as an "opaque substance."
